Donald Eaton worked for us at Will & Kris Amusements from May of 2014 to 2017. While at Will and Kris Amusements Donald worked as part of our ride set up team and as a ride operator. Ride set up and operation involves transporting equipment to the venue, setting up equipment correctly for operation, monitoring equipment during the event, then disassembling equipment at the conclusion of the event to return to warehouse for storage. We found Donald to be intelligent and a quick learner. So much so that Donald was able to lead a couple of teams and manage events independently with no supervision. Donald was also punctual, reliable, and willing to make the extra effort to insure the event was successful.

A handwritten signature in black ink, appearing to read "Will Kirksey".
